Re: 1997 Analytical Review File DWCCA-4020-RL

Dear Ms. Wnuk:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. During our review, we noted that the Status for several schedules on the Schedule Listing in the electronic annual report was not changed from "not started" and/or "in progress" to "completed." It is important to change the status for all schedules, whether the schedule is left blank or not. That allows the PSC to determine that schedules have been finished, and, where left blank, were intentionally left blank rather than simply overlooked. Staff has changed all schedules' status to "complete" in our electronic copy. Please indicate if any "not started" schedules should have had data or if any "in progress" schedules were not complete. If any schedules were not complete or should not have been blank, please provide that data.

2. During our review of the Mains schedule, we noted you reported 1993 feet of 10 inch PVC mains for first of year 1997, page W-14. However, on page W-11 of your 1996 annual report you reported 7305 feet of ten inch main for end of year. Please explain.

3. Page W-8, line 37, column (c), reports a \$21,877 addition to Account 373, Transportation Equipment. This is an account which was previously not used by your utility. A depreciation rate of 10.50 percent is authorized for Account 373, effective January 1, 1998.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-1491.

Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Roselee Losenegger
